

Towards a safer world

## **THREAT SIMULATION. MADE REAL.**

Widely recognised as a best-in-class reusable threat simulation system, the high performance Mirach 100/5 aerial target is in use in all major European Firing Ranges and deployed by six Armed Forces worldwide and employed to qualify over 30 guided weapons in the air, naval and land domains. Able to embark a wide range of target mission payloads, Mirach replicates the most complex air threats to present weapons and sensors with representative and stressing engagement scenarios.

**Make sure you know your threats before you meet them. Tomorrow's technology is here today.**
