SELEX GALILEO

A Finmeccanica Company

INTRODUCTION TO SELEX GALILEO

SELEX Galileo is a leading global player in defence electronics, and delivers airborne mission critical systems and a full ISTAR capability for the battlespace to its customers. Thanks to its leading-edge proprietary technologies and strong partnering culture, SELEX Galileo provides armed forces and government agencies with state-of-the-art solutions for the battlefield and for homeland security applications.

Supplying and supporting equipment in-country around the world, SELEX Galileo is a truly global business. SELEX Galileo has a 7000-strong international workforce with operations in the United Kingdom, Italy, United States and Saudi Arabia.

THE VALUES OF SELEX GALILEO

- Customer intimacy – the top priority
- Our people – working together
- Integrity – to the highest standard
- Diversity – embracing our cultures
- Innovation – we choose to push the boundaries

SELEX Galileo's people are its greatest strength and are encouraged to reach their full potential, being recognised for their commitment and collaboration both internally and externally, and their value to the Company.

SELEX Galileo supports diversity by embracing cultures and harnessing the rich connection that a multi-cultural workplace offers, to be a single winning team. We push the boundaries making an innovative culture in which we accept tough challenges, drive new ideas and develop new technologies to maintain our competitive edge.

Ethical business conduct is more than just a policy: it is fundamental to the way in which we do business, whether we are dealing internally with fellow employees or externally with customers, suppliers, stakeholders and competitors.

PLACEMENT OPPORTUNITIES

SELEX Galileo offers exciting summer and up to 12 month placement opportunities across technical and non-technical functions. There are a range of placements across the different forms of engineering or business, for those studying towards a business-related or humanities degree.

SELEX Galileo relies on having the very best employees to maintain its competitive edge and has some of the industry's most sophisticated technology at its fingertips. By gaining industrial experience with SELEX Galileo you will not only be working at the cutting-edge of technology, you will also be enhancing your skills, business acumen and future prospects.

THE REWARDS

You can expect a competitive salary and valuable experience working with an ambitious leader in their field among customers, programmes and operations across the world.

During your time with us, your training and development will be managed through on-the-job training on a variety of challenging and exciting projects and programmes. In addition you will be extended opportunities to offer you insights into different areas of the business and to engage in external activities within the local community and at Universities across the UK. You will also be working in the same environment as the current apprentices and graduates to ensure the time you spend with us is fun and supported by an active social life.

You will be supported every step of the way and regular Industrial Placement Forums are held to monitor your experiences and ensure you are reaping the benefits of the placement. Throughout your placement you will have had the opportunity to establish contacts across the industry and to demonstrate your value to the Company. Performing at a high level can be rewarded with sponsorship at University and a conditional job offer for our Transnational Graduate Programme (TGP), enabling you to concentrate on your studies before returning to SELEX Galileo and continuing your career.

Examples of some of the placements we can offer include:

INDUSTRIAL PLACEMENTS

Systems Engineer Engineering
Software Engineer Operations/Manufacturing
Hardware Engineer Legal
RF Microwave Engineer Business
Human Resources

SUMMER PLACEMENTS

Engineering
Operations/Manufacturing
Legal
Business

HOW TO APPLY

Visit our careers website at www.selexgalileo.com.

“I have been impressed with the level of support available at SELEX Galileo and always feel that there is someone in the Company that can help me if I need them to. My engineering skills have improved a vast amount and I believe I now have the skills to succeed in industry.”

Don McKay, Undergraduate Systems Engineer

“My role at SELEX Galileo has been very much a ‘hands-on’ experience with an array of projects and opportunities. Working with different members of the HR team has allowed me to be involved with a mixture of activities. I feel that I have really benefited from spending a year at SELEX Galileo as it has allowed me to increase my knowledge around HR and develop my skills.”

Andrea Ranford, HR Industrial Trainee

“I have certainly gained a lot of valuable experience from my time at SELEX Galileo and I feel that the work I do is really valued by everyone here. It is especially satisfying to know that I will have had the opportunity to contribute something concrete to a flagship product. The atmosphere is always friendly and relaxed and everyone is always very willing to help, and I think all of these factors make working at SELEX Galileo a highly rewarding and enjoyable experience.”

Adam Wood, Summer Placement Student
