Edinburgh Radar Specialists Sponsor International Conference on Radar Systems

Edinburgh based Radar specialists, SELEX Sensors and Airborne Systems (SELEX S&AS) will feature as main sponsors of The Institution of Engineering and Technology's International Conference on Radar Systems (Radar 2007) which will be hosted in the Capital from 15 – 18 October.

The radar pedigree of the SELEX S&AS site at Crewe Toll site stretches back over 50 years during which the company have remained at the forefront of Radar technology.

Radar 2007 will cover all aspects of radar systems for civil, security and defence applications and will include an exhibition of the latest, most innovative products and services. SELEX S&AS will exhibit many of their new and innovative Radar technologies at the exhibition including the latest Active Electronically Scanned Array (AESA) models which are manufactured at the Edinburgh site.

Dr Paul Holbourn, Capability Director Said: "The SELEX S&AS site in Edinburgh is at the forefront of developing advanced Radar systems. This has been a strong business line for us for over 50 years. It is entirely appropriate that we support Radar 2007 as it provides an excellent opportunity for our engineers and scientists to network with their international peers."
